

One of the best ways to get ready for Kindergarten is to read for 10-20 minutes, every day. Below you'll find some fun suggestions of books that you and your child can read together, you can read any of them, or choose your own!

As you read, take time to stop and ask your child questions.

Have them point out letters or words, or make letter sounds for you, identify rhyming pairs, make predications, and think of ways that they are like a character in the story. Help them to interact with the reading. Don't make it a chore – have fun!

Help your child choose their favorite book and fill out the mini-book report together and bring it to school on the first day for a prize.
