2016 Senior Summer Assignment

Research

\*the difference between college and high school writing expectations and assignments a sample website is [http://writing-program.uchicago.edu/resources/collegewriting/high\\_school\\_v\\_college.htm](http://writing-program.uchicago.edu/resources/collegewriting/high_school_v_college.htm)

YOU NEED THREE SOURCES

\*task words for interpreting an assignment- this is crucial for the beginning of class –for this and the one above, only use ,edu websites.

\*how to write a standard APA outline (not a sentence outline)- the information is abbreviated, yet wording must be enough to show information i.e. II. interpreting assignments  
a. task words

Synthesize the information from the three sites so that you do not have a citation for every line.

You will need to send the outline before the first day of school to [pperez@finneyschool.org](mailto:pperez@finneyschool.org). Bring your handwritten notes (not web pages) to class on the 2nd day of school.

Outlines do not usually have a References page, so include your citations within the outline in APA format, not just a URL.
