

Welcome to Fourth Grade! We hope you are having a wonderful summer! As we prepare for September, it is important that you keep reading and practicing your math skills. Please submit your summer reading assignment on the first day of school, or email it to your teacher (Mrs. Rollins: drollins@finneyschool.org; Mr. Vignare: jvignare@finneyschool.org).

READING:

- Read at least one grade-appropriate novel. Here are some recommendations, but you can also search online or at a library:
 - *Jake the Fake* series by Craig Robinson & Adam Mansbach
 - *Frindle* by Andrew Clements
 - *Wonder* by R.J. Palacio
- Respond to both prompts in paragraph form. You may handwrite or type:
 - 1) Write a summary of the book.
 - 2) Describe one main character in the book. What positive and negative character traits did he or she have? Did you like the character? Why or why not?

MATH:

- Continue practicing your multiplication and division facts (through 12 X 12). Fourth Grade math will be so much more fun if you know your “fast facts!”
- If you are a returning Finney student, continue practicing on Reflex.
